Professional Experience

Maha Infotech Pvt. Ltd.

Associate IT Consultant (Oct 2025 - Current)

Currently working as an Associate Consultant at Maha Infotech Pvt. Ltd., focusing on IT projects of Chh. Sambhajnagar Smart City. I support project execution through technical documentation, IT infrastructure troubleshooting, and integration of digital solutions for civic modernization.

Chowgule Lavgan Shiprepair Pvt. Ltd.

IT Trainee (Apr 2025 - Oct 2025)

As an IT Trainee my job was to provide Technical Support to any software related issues that arise within the organization by performing troubleshooting. I also used to perform system administration tasks & perform troubleshooting whenever required to solve the technical issues.

Expert Global Solutions Pvt. Ltd.

Software Development Intern (Jan 2024 - May 2024)

During the period of my internship, I with other interns developed a learning platform for the company's employees and I learned & worked with technologies like HTML, CSS, Javascript & Postgresql. I also learned the importance of team work and communication during my internship period.

Projects

- Used a local Git repo to securely push the code into GitHub repo using PAT (Personal Access Token)
- Deployed a website using a container & integrating MySQL database with it
- Managed the load on Multiple AWS EC2 instances using a load balancer & autoscaling group
- Orchestrated Docker Container using Terraform
- Orchestrated WordPress and MySQL deployment on Kubernetes

Education

Master of Computer Applications, CGPA: 6.79 (2022-2024)

Government College of Engineering, Chh. Sambhajnagar
