

GAURAV G. KASHIKAR

DevOps Engineer | Cloud & Infrastructure Automation

Chhatrapati Sambhajnagar, Maharashtra, India

gauravkashikar25@gmail.com | +91 96578 19037 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

MCA graduate and IT Consultant transitioning into DevOps Engineering, with hands-on experience across AWS, Docker, Kubernetes, Terraform, Jenkins, and GitHub Actions built through self-driven infrastructure projects. Skilled in Linux system administration, CI/CD pipeline automation, and infrastructure as code. Strong foundation in Git-based version control workflows and cloud networking; quick to learn new tools and comfortable collaborating with technical teams on production infrastructure.

TECHNICAL SKILLS

Cloud (AWS): EC2, S3, VPC, IAM, CloudWatch, Auto Scaling, Elastic Load Balancer

Containers & Orchestration: Docker, Podman, Kubernetes, Red Hat OpenShift

Infrastructure as Code / CI-CD: Terraform, Jenkins, GitHub Actions

Monitoring (Learning): Grafana, Prometheus

Programming & Scripting: Python, Bash/Shell Scripting, JavaScript, SQL

Databases: PostgreSQL, MySQL

Version Control: Git, GitHub (branching, pull requests, PAT-based push workflows)

Operating Systems: Linux (RHEL, Ubuntu)

PROFESSIONAL EXPERIENCE

Associate IT Consultant — Maha Infotech Pvt. Ltd.

Oct 2025 – Present

- Support IT projects for the Chhatrapati Sambhajnagar Smart City initiative, including technical documentation and infrastructure troubleshooting.
- Coordinate integration of digital solutions for civic modernization across cross-functional teams.

IT Trainee — Chowgule Lavgan Shiprepair Pvt. Ltd.

Apr 2025 – Oct 2025

- Provided technical support and troubleshooting for software-related issues across the organization.
- Performed routine Linux system administration to keep internal systems running smoothly.

Software Development Intern — Expert Global Solutions Pvt. Ltd.

Jan 2024 – May 2024

- Built a learning platform for company employees with a team of interns using HTML, CSS, JavaScript, and PostgreSQL.
- Gained hands-on experience with version control, team-based development, and cross-functional communication.

PROJECTS

Kubernetes Taints, Tolerations & Static Pods [GitHub →](#)

- Explored Kubernetes scheduling controls to manage workload placement across cluster nodes.

Infrastructure Provisioning on AWS Using Terraform

- Authored Terraform configs to provision and version multiple AWS EC2 instances as code.

AWS Load Balancing & Auto Scaling

- Configured a Load Balancer and Auto Scaling Group across EC2 instances to improve availability.

Containerized Web App with MySQL

- Built and deployed a containerized web app integrated with a MySQL database using Docker.

CI/CD Pipeline Automation Using Jenkins

- Automated a build-test-deploy pipeline with Jenkins to streamline application delivery.

Cloud-Native App Deployment on Red Hat OpenShift

- Deployed a containerized application on OpenShift to practice enterprise Kubernetes orchestration.

EDUCATION

Master of Computer Applications (MCA) — Government College of Engineering, Chhatrapati Sambhajnagar

2022 – 2024 | CGPA: 6.79

Bachelor of Commerce (B.Com) — Dr. Babasaheb Ambedkar Marathwada University, Chhatrapati Sambhajnagar

2018 – 2021 | CGPA: 7.35

CERTIFICATIONS

- Aspire Leaders Program — Harvard Leadership Initiative
- Tools of the Trade: Linux & SQL — Google
- Google AI Essentials — Google
- Learning Docker — LinkedIn Learning
- Google IT Support Professional Certificate — Google

Languages: English, Hindi, Marathi
